

Tell state regulators how an added \$29.47/month on your Pacific Power bill will impact you personally!

The Backstory: This year, Pacific Power is trying to raise rates by 21.6% for Oregon households. A typical household could see an average increase of **\$29.47 each month**. Utility customers across the state are feeling the impacts of higher energy bills. CUB is working hard in this case to make some **big changes to how regulators consider affordability** in these requests from utility companies.

Pacific Power's proposed increase is largely from wildfire-related costs. After the court ruled the company was grossly negligent in the 2020 Labor Day fires, Pacific Power has consistently made moves to pass liability costs onto customers. CUB will be analyzing this to **ensure Pacific Power is held financially responsible for wildfire liability**.

Testimony Template Guideline

Step 1: Introduce yourself. Give your name, city/town, and relationship to Pacific Power. (Are you a customer? How long have you been a customer of Pacific Power?):

Step 2: Identify your connection to this bill increase:

- ☐ A \$29.47-a-month increase would cause me financial hardship.
- ☐ I would have to choose between paying other bills, like groceries or medication, to afford this increase.
- ☐ All of my bills are not currently manageable and I am concerned by this increase.
- ☐ I am concerned that this rate increase will impact loved ones or members of my community.
- ☐ _____
- ☐ _____

Step 3: Write 2-3 sentences expanding on the issues you checked off. Elaborate on how each concern relates to your personal life. If you are already financially strained with the high bills, how is your household cutting corners? What can you foresee impacting you on an immediate level with this bill increase? How might this increase impact your family, friends, or other members of your community?

Step 4: Reiterate your perspective and thank the members of the Commission. State why reducing the rate increase will directly benefit you and your community. Encourage them to consider your concerns and take action.

Here's an example testimony with this outline:

Members of the Public Utility Commission,

My name is _____ and I am here today to speak out against Pacific Power's proposed rate increase. I have been a Pacific Power customer for _____ years.

Over the years, my bills have continuously increased year after year. My current household budget already limits my ability to provide for my family and afford the rising cost of living. An additional \$29.47 a month in utility bills will negatively impact me and make it even harder to afford essential purchases, such as gas, medication, and groceries.

My savings barely survived the pandemic and my family, along with people like myself, have been struggling to get back on our feet. Each year, my bills have increased and it gets harder and harder to catch up when my paycheck hasn't changed.

This rate increase harms my family and my community. Pacific Power needs to think about its customers before making such a drastic change to our bills. Please don't approve this rate increase and support the needs of Pacific Power customers struggling to afford the cost of everyday living.

Thank you for your time and for listening to me,
